### What's the idea behind flexible membership?

Flexible membership at our club has been brought in to support the occasional or fair weather golfer who doesn't feel they will get the benefit of a full subscription.

### What's the cost of flexible membership?

£300 will give you 300 points to spend how you wish.

An additional 100 points may be purchased for £100 after using the first allocation of points. This may only be done once in a subscription year.

### How do the points work?

The points will be based around the day or time you play and not based on how many holes you play. See the breakdown of the points system.
